

You're Invited to Test Drive the All-New 2019 Silverado.

Sunday, April 2 | 12pm to 5pm

The strongest, most advanced Silverado ever.

When you combine a century of truck building know-how with 7 million miles of testing, you don't just get any old truck. You get one that's bigger, stronger and lighter than the previous generation. One that offers you more choices so you can get the capability you need.

No matter if you're an experienced hauler or joining the Silverado family for the first time, with eight distinct trims each offering unique designs and capabilities, you'll be able to choose the truck that's right for you.

Power.

There's no one tool for every job, that's why the All-New Silverado offers six different powertrains, including an all-new 3.0L Duramax® Turbo-Diesel, the powerful and advanced 6.2L V8 w/ Dynamic Fuel Management, and a responsive 2.7L Turbo.

Comfort.

Whether you're trying to get to work, or just trying to get away, the spacious cabin of the All-New Silverado pairs hardworking functionality with refined comfort that takes you from workday to weekend and every place in between.

Strength.

We took the hardest-working part of the truck and redesigned it to be lighter, larger and stronger. Durabed combines high-strength roll-formed steel, more cargo volume than any other truck plus 12 standard tie-downs.

Complimentary Food & Family Entertainment

Complimentary food, face painting and balloon animals from 1pm to 4pm, provided by Pollard's Chicken and MerMan's Comedy and Illusion Shows.

PLUS enter to win an Amazon Echo Spot or Apple TV!
